

## **QUALITY POLICY**

RITAJ Engineers & Consultants is committed to provide Quality Engineering and project management solution to its customer community from various sectors like oil & Gas, Power & Utility and Infrastructure.

We strive to achieve Customer Satisfaction through implementing and regular monitoring of effective quality management system throughout the organization

We believe that we can be good leaders in our areas of service by fulfilling the client's requirements, offering equal opportunities to our employees, good process and system approaches. This would lead us to continual improvement in our endeavor.

We work on the basis of factual input and by applying analytical approach to provide efficient designs and management solutions.

We are committed to comply with regulatory and statutory requirements, agreed contractual requirements, local and international health, safety, environment, local and international standards and good engineering practices.

All the Employees of RITAJ Engineers & Consultants are responsible for the implementation of the quality management system in their area of work to ensure successful completion of projects.
